About RSNB-GiE

The Republic of Sabah North Borneo Government-in-Exile (RSNB-GiE) is a political and diplomatic body established to represent the national aspirations, historical rights, and future selfdetermination of the people of Sabah, North Borneo. RSNB-GiE was proclaimed in Melbourne, Australia, on 13 September 2025 and was formally established on 16 September 2025 as a representative body formed by Sabahans and supporters of Sabah's right to self-determination. Its establishment arose from the understanding that the political status of Sabah remains unresolved in law and history, and that a peaceful, lawful, democratic, and internationally responsible platform was necessary to represent that cause with seriousness, discipline, and continuity. RSNB-GiE maintains that the future of Sabah must be determined by the people of Sabah themselves. It exists to pursue that cause through peaceful advocacy, public education, legal and historical research, diplomatic engagement, and responsible national preparation. It is not an armed movement, nor a campaign of hatred or disorder. It is a disciplined and principled effort to advance Sabah's cause through peaceful, lawful, and democratic means.
