Who We Are

Who We Are

RSNB-GiE is a national platform for Sabahans and supporters of Sabah's political future who maintain
that the people of Sabah have the right to determine their own destiny.

We are a body committed to peaceful advocacy, historical truth, legal and diplomatic engagement,
democratic legitimacy, and respect for all peoples of Sabah. Our work proceeds from the principle
that Sabah is not merely a passive political unit, but a homeland with its own identity, historical
experience, and rightful claim to determine its own future.

RSNB-GiE exists to provide leadership, structure, and direction to a serious and responsible national
effort. It serves as a platform for public education, historical and legal research, national awareness,
diplomatic outreach, and long-term preparation for self-government.

Our role is not only to speak about freedom, but to help prepare the political, intellectual, and
institutional foundations required for Sabah to emerge as a sovereign country under the name
Republic of Sabah North Borneo.

What Defines Us

We are:

• peaceful in method

• disciplined in conduct

• serious in purpose

• lawful in approach

• democratic in principle

• national in outlook

Our Character

RSNB-GiE is not an armed movement, nor is it a body founded on hatred, division, or disorder. It is a
representative and preparatory body formed to advance Sabah's cause in a way that is responsible,
credible, and internationally understandable.

Our Responsibility

We recognise that a genuine national struggle must be more than emotion or rhetoric. It must also
involve discipline, knowledge, organisation, public responsibility, and long-term preparation.

That is the role RSNB-GiE seeks to fulfil.
